SUMMARY

From Nigeria to the digital realm, I am a passionate Frontend Web Developer with an eye for code aesthetics, crafting visually captivating interfaces pixel by pixel. I combine my love for beautiful UI design with dedication to clean code and application of best practices to deliver solid results with the best user experience and a codebase that is scalable and maintainable.

EXPERIENCES

WALKERS DAO - Onsite

Web Developer   *April 2023 - Present*

- Responsible for designing and developing responsive websites and web applications.
- Implemented clean and maintainable codes using HTML, CSS, JavaScript and React.
- Collaborated with designers and other developers to create visually appealing and functional user interfaces.
- Maintained cross-browser compatibility and optimized website performance.
- Integrated data from APIs and databases into web applications.
